

## Next Steps

What's next?

Congratulations on completing Integrating Generative AI into Unit Test Development! In this course, you learned about using AI to aid in creating unit test and are now able to:

- create prompts that can help you write unit test
- write secure test for input validation, XSS prevention, file exposure, encryption, and access control

Now that you have finished your learning journey, you may be asking, "What's next?" Here are our recommendations for next steps:

[Learn to Prevent SQL Injections with Node.js](#)

[OWASP Top 10: Server Side Request Forgery](#)

[Unit Testing with Generative AI Case Study](#)

Once again, congratulations on finishing your course! We're excited to see what you accomplish next.
